6 BASIC PRINCIPLES

- 6.1 It is a rule that the processes in the Exchange Programs Directive are to be carried out by the relevant unit, faculty/institute and persons.
- 6.2 The Exchange Programs Directive is the basis and it supports all the directives and procedures used in accordance with the legislation of all exchange programs carried out at the University.
- 6.3 This and other related directives are evaluated together as needed. Applications that are not included in the related directives are based on the methods included in the Exchange Programs Directive.
- 6.4 The time spent at the partner university within the framework of exchange programs is included in the student's total study period.
- 6.5 Among the students who carry out “study” mobility within the scope of all exchange programs, those who continue their education by paying tuition fees at Koç University, also give their best to Koç University for the period they participate in the exchange program. 7 METHOD

7.1 Outgoing Student Exchange Programs

7.1.1 General Principles:

7.1.1.1 In order to carry out the activities within the scope of the Erasmus+ KA131 study mobility under the Erasmus+ program, it is necessary to have a valid agreement signed between Koç University and higher education institutions abroad with ECHE. Within the scope of the Erasmus+ KA171 (study & internship) program, the partner institution is not required to have an ECHE. Inter-institutional agreement is not required for internship activities within the scope of the Erasmus+ program, but if the Erasmus+ KA131 internship activity will take place **at** a higher education institution in a country associated with the program, is required to have an ECHE.

---	---	--

7.1.1.2 In order to realize the activities within the scope of Global and Summer Exchanges, there must be a valid bilateral agreement signed between Koç University and higher education institutions/research centers/educational institutes etc. abroad.

7.1.1.3 Erasmus+ mobility programs can take place in different types: face-to-face, mixed, virtual, long-term or short-term. The suitability of this is shared in the relevant application call, depending on the conditions determined by the partner institution and the rules determined by the OIP.

7.1.1.4 The OIP organizes regular information sessions for students every academic year and ensures that the Erasmus+ study/internship mobility program is announced within the University and participation is expanded. Information about the applications is communicated via OIP's website, University e-bulletin, OIP social media channel and e-mail announcements made to all students.

7.1.1.5 The OIP is responsible for conducting the necessary communication with partner institutions and determining the available quota information on an institutional basis before the Erasmus+ education application announcements.

7.1.1.6 Current quota information is updated by the OIP on the OIP website and on KUAPP before application announcements are made

7.1.1.7 Information about institutions that are/are not eligible for the Erasmus+ internship program is communicated to the students via the OIP website and application calls.

7.1.1.8 The Erasmus+ study/internship program application and evaluation calendar is shared with the University community at the beginning of each academic year via the OIP website and the University e-bulletin. In case of a change in the calendar, the OIP is responsible for making the necessary arrangements. Application requests received outside of the dates specified in this calendar will not be considered.

7.1.1.9 Application announcements are made 20-30 days before the applications are open. Applications are received within 20-30 days. It is at the OIP's discretion to modify the application processes.

7.1.1.10 Erasmus grant/Global Exchange Scholarship is not guaranteed in the application calls that open after the first call and applications are only accepted for the Spring semester of the next academic year.

7.1.1.11 Minimum requirements for the application, what the application documents are, how and where they can be obtained, and the issues to be considered while uploading them to the application system are included in the application announcements. The student is responsible for uploading the required documents to the application system of the OIP within the announced application period and as stated in the application announcements.

7.1.1.12 Double major students apply by choosing only one of the programs they are enrolled in (main major or second major). In case they graduated from their main major, the double major students apply only from their second major.

7.1.1.13 Students cannot apply through the minor program.

7.1.1.14 Students who want to benefit from the Erasmus+ study/internship exchange program are obliged to follow the information messages sent by the OIP and the OIP website.

7.1.1.15 Students who freeze registration can apply to exchange programs during the period when registration is frozen. A student who has frozen his/her registration cannot carry out a learning mobility through the OIP during the registration period.

7.1.1.16 If the execution time of a student's disciplinary penalty coincides with the period in which he/she will participate in the exchange program, the relevant student cannot participate in the exchange program. The exchange period specified in previous applications and placement cannot be changed. The student can apply to

the exchange program calls opened during the implementation of the disciplinary penalty.

7.1.1.17 Students can participate in exchange programs in their senior year, but they accept the possibility that this may delay their graduation.

7.1.1.18 Even if the student has course(s) from the previous semesters, he/she can apply if he/she meets the grade point average requirement. If students who have course(s) from the previous semesters cannot take the course(s) they failed abroad, they have to take these courses at KU after they return.

7.1.1.19 Doctoral students and post-doctoral researchers are obliged to get an approval for participation in the program from the Graduate School Director to which they are affiliated, and to obtain pre-invitation approval from the institution(s) they plan to attend.

7.1.1.20 Exchange programs cannot be used at the following stages of doctoral programs:

7.1.1.20.1 For doctoral students who have not taken the doctoral qualifying exam, in the last semester where it is required to take the doctoral qualifying exam;

announcement of the selection results by the OIP.

7.1.7.2 It is obligatory for students to attend the Orientation Program organized by the OIP before the exchange program, and students who do not attend the orientation without stating a force majeure specific to the Erasmus+ program, get minus (-) points in their next Erasmus+ program applications according to the National Agency instructions.

7.1.7.3 The student, who is placed in any university with the exchange program and is entitled to attend this university, is responsible for obtaining all kinds of information about the academic calendar of the unit in the university, the language of instruction, the curriculum, the dormitory facilities and fees, the country and city of residence, the monthly average expenses and transportation.

7.1.7.4 In cases where the student does not complete the processes during or after the exchange program or does not submit documents he/she is responsible for submitting, he/she will be subject to minus (-) points in terms of grant/Global Exchange Scholarship deductions/returns and/or future exchange programs applications. Current conditions regarding this is made on the OIP website, in the announcements made by the OIP, and the grant agreement/commitment signed between the student and Koç University.

7.1.8 Grant Distribution, Grant Agreement and Payment of Grant

7.1.8.1 The maximum grant period and allocation method that the University will give to students for that year as well as the monthly grant, which vary according to the countries, determined by the National Agency is announced in the application announcement published by the OIP.

7.1.8.2 Grants are paid in the manner and rate determined and announced for that year.

7.1.8.3 Grant distribution to students selected within the scope of Erasmus+ study/internship program is made in line with the suitability of the budget allocated to the University by the National Agency. Grant distribution is made

according to the score ranking in the Selection and Placement list. In cases where the Erasmus+ budget is insufficient, it is possible that a group of students in the Selection and Placement list cannot be given a grant.

7.1.8.4 The students selected in the first call for application are given priority in the allocation of grants. In case there is more than one call for applications and Erasmus+ resources are insufficient, the OIP may open a call for “Non-Grant” applications. OIP may decide and announce whether the calls will be on a “Grant” or “Non-Grant” basis in line with the information received from the National Agency before the call or after the selection results are announced.

7.1.8.5 A grant agreement is signed between the student who has completed the pre-exchange mobility documents and processes and Koc University before the exchange. This agreement determines the amount of grant support that the student will receive and the obligations of the parties. With this agreement, it is certain that the student will participate in the exchange program. Following the signing of the grant agreement by the student and the Erasmus Institutional Coordinator, the payment order is sent to the Budget and Reporting Directorate by the OIP within 30 days. Subsequently, the necessary processes for payment are initiated by the Budget and Reporting Directorate.

7.1.8.6 When calculating the grant to be allocated to the student, the OIP takes the Erasmus Exchange period of the student, the maximum grant support to be allocated by the University, and the amount of grant determined by National Agency on a country by country basis. If the actual Erasmus Exchange period is shorter than the foreseen period, the grant is recalculated according to the actual duration. Grants are paid as calculated. On the other hand, if the amount of grant increases in proportion to the period of stay of the students at the end of their mobility, an additional grant agreement is signed between the student and the University.

7.1.8.7 Grant payments are made in Euros in two installments, 70% before the mobility and 30% after the mobility. The student's ability to receive the determined grant payment installments depends on the fulfillment of his/her obligations before and after the mobility. These obligations can be found in the letter of commitment, grant agreement, the OIP announcements and on the OIP website.

7.1.8.8 Students who have been selected for the Erasmus Exchange but have not received any grant support can participate in the Erasmus Exchange, provided that they sign the grant agreement that includes their obligations and the information that they will have no grants allocated.

7.1.8.9 In case the University finds additional resources, it may be decided to provide grant to students who have started the exchange period without a grant. While making this decision, the provisions of National Agency's Implementation Manual for the relevant year, the number of calls (the first call is always prioritized) and the ranking score of the students are taken into account.

7.1.8.10 A student with a “grant” who wants to extend the exchange period can only extend the period as a student with “grant”. If the university does not have sufficient grants, the student's request for a term extension is rejected by the OIP. “Non-grant/zero grant” students who want to extend their exchange period can only extend their period as “Non-grant /zero grant” student.

7.1.9 Global Exchange Scholarship Application, Distribution and Scholarship Payment

7.1.9.1 Global Exchange Scholarships are gratuitous scholarships given by the University to students in need who are eligible to attend exchange programs.

7.1.9.2 The opening of Global Exchange Scholarship applications depends on the availability of resources and may not be offered for every Global Exchange Program application or every academic year. The decision is at the initiative of the University administration.

7.1.9.3 Students selected in the first call for applications are given priority in the distribution of scholarships. If there is more than one call for applications and Global Exchange Scholarship resources are insufficient, the OIP may open a “No Scholarship” call for applications. The OIP may decide and announce whether the calls will be “With Scholarship” or “Without Scholarship” before the call or after the selection results are announced.

7.1.9.4 Students wishing to apply for a Global Exchange Scholarship:

7.1.9.4.1 Are responsible for meeting the application conditions of the OIP as well as the constions of the partnering university they applied for.

7.1.9.4.2 Must be an undergraduate student.

7.1.9.5 Students on Anatolian Scholarship are subject to the same application and selection process and conditions, and since they have already submitted the relevant documents to the Scholarships Coordinator, they do not need to submit supporting documents again. If the applications of the students in this group are found positive, the scholarship is provided by the Institutional Relations and Resource Development Directorate, depending on the availability of the relevant resources.

7.1.9.6 Scholarship amounts are determined according to the budget allocated and the number of applications in each application year.

7.1.9.7 Application evaluation of students applying for a scholarship is carried out by the Dean of Students and the Scholarships Coordinator, taking into account criteria such as the student's success status, financial need, whether or not there are different sources of income, and the approach of institutional affiliation. The list of students who are eligible for a scholarship and the amount of scholarships are sent to the OIP by the Scholarships Coordinator.

7.1.9.8 Students who are entitled to receive a scholarship are informed by the OIP, and if they accept, they are expected to fill out and sign the “Global Exchange Scholarship Commitment Letter” and submit it to the OIP by the date specified by the OIP. Scholarships of students who do not perform these steps will be cancelled.

7.1.9.9 The scholarship amount allocated for one academic year cannot be transferred to another academic year.

7.1.9.10 If the application of the student who is entitled to receive a scholarship is rejected by the partner university or cancels his/her mobility for any reason, the scholarship cannot be transferred to the next academic year and will be cancelled.

7.1.9.11 The student who is entitled to receive a scholarship sends a petition to the Scholarships Coordinatorship with a petition regarding the continuity of the scholarship, in case the exchange period changes or the institution to which he/she will go changes. If the decision is positive, the amount of the scholarship can be revised, reduced or increased depending on the availability of resources, depending on the institution/country to be visited.

7.1.9.12 Students who complete their pre-exchange mobility documents and processes are entitled to receive Global Exchange Scholarship payments. The scholarship amount is paid in one installment. The names of the students, the amount of

scholarship they are entitled to receive, and their account information are reported to the Budget and Reporting Directorate by the OIP. For those who are on the Anatolian Scholarship Program and who are entitled to receive scholarships and complete their pre-mobility processes, the necessary information is forwarded to the Institutional Relations and Resource Development Directorate by the OIP, and the Institutional Relations and Fundraising Directorate sends the payment orders to the Accounting and Finance Directorate.

7.1.9.13 In case the University finds additional resources, it may be decided to provide grant to the students who started the exchange period without a scholarship, or to increase the scholarship amount of the students who are entitled to receive a scholarship. The decision is at the initiative of the University administration.

7.1.10 Financial Liabilities

7.1.10.1 Students fulfill their financial obligations to the University for the time they spend in the exchange program, and they do not pay tuition fees to the partner institution.

7.1.10.2 Accommodation, transportation, health insurance and similar personal expenses are the students' responsibility.

7.1.10.3 The host institution may request fees for the use of various materials such as insurance, residence permit, discounted transportation card, course materials, use of laboratory products.

7.1.10.4 In the case of Erasmus programs, if the student does not meet the conditions specified in the Grant Agreement signed between the OIP, the University and the student, or if the mobility is interrupted without a force majeure reason, the university has the right to request the student to repay some or all of the grant and the student is obliged to meet this request. The reason and amount of the refund are notified to the student by the OIP by e-mail. The student is obliged to make

the refund and deliver the receipt to the OIP within 30 working days after the notification.

7.1.10.5 Students on the Global Exchange Program Scholarship are expected to take courses equivalent to 15 Koç University credits at the partner institution and return with a minimum GPA of 2.5/4.0. If the exchange period ends with a grade point average of less than 2.5/4.00, the Global Exchange Scholarship can be requested back from the student.

7.2 Outgoing Academic/Administrative Staff Procedures within the Scope of Exchange Programs

7.2.1 General Principles and Application Procedures

7.2.1.1 Staff mobility includes two types of mobility: teaching and training mobility.

7.2.1.2 In order to benefit from teaching mobility within the scope of Erasmus+ (KA131 & KA171) or bilateral exchange program, the following prerequisites must be met:

7.2.1.2.1 Being a full-time lecturer at the University;

7.2.1.2.2 In the case of the Erasmus+ KA131 program, there is an inter-institutional agreement between a higher education institution holding an ECHE and Koç University in one of the countries associated with the program;

7.2.1.2.3 In the case of the Erasmus+ KA171 program, mobility can take place in one of the countries and institutions where Koç University receives a mobility grant within the scope of the relevant project, and an inter-institutional agreement is required.

7.2.1.3 In order to benefit from the mobility to study within the scope of Erasmus+ (KA131 & KA171) or bilateral exchange program, the following prerequisites must be met:

7.2.1.3.1 Being a full or part-time faculty or administrative staff at Koç University;

7.2.1.3.2 It is not necessary to have an inter-institutional agreement for the training mobility to take place;

 KOÇ ÜNİVERSİTESİ	EXCHANGE PROGRAMS DIRECTIVE Y16-UPO-001	Date: 13.12.2022 Update No: Update Date: Responsible Unit: International Programs Office Page: 32/ 50
---	---	---

7.2.1.3.3 Specific to the Erasmus+ KA131 program, training mobility can be carried out through on-the-job training, observation processes, staff training, etc. in a higher education institution or an enterprise abroad;

7.2.1.3.4 Specific to the Erasmus+ KA171 program, educational mobility can only take place in one of the countries and institutions where Koç University receives a mobility grant within the scope of the relevant project, and there is no requirement for an inter-institutional agreement.

7.2.1.4 Within the scope of the Erasmus+ program, there is no tenure requirement for the staff employed at the University. Staff who have a contract with Koç University can benefit from the mobility program. Staff whose tenure is in a different institution and who are working at Koç University on a contractual basis need to apply for mobility as staff of Koç University where they actually work, not where they hold a tenure position. Since there is no contract between the staff employed in Koç University and the service procurement, persons working at Koç University as part of service procurement cannot benefit from staff mobility.

7.2.1.5 Within the scope of staff teaching mobility, you can work in an enterprise, training center, research center, university, etc., located in one of the program countries. It is also possible to invite working staff to Koç University to teach students. The rules regarding documents and obligations are also valid for these staff. Priority is always given to Koç University staff in grant distribution. In case of not receiving enough applications from Koç University faculty members within the scope of training mobility, the relevant budget is shifted to "Getting Training" mobility. If there are not enough applications in this category, the relevant budget can be transferred to the "training" mobility activities in Koç University, where the staff working in an establishment located in one of the program countries will participate.

- 7.2.1.6** Academic staff can apply for Erasmus+ training mobility, but administrative staff is prioritized in the training activity.
- 7.2.1.7** Within the scope of the Erasmus+ KA131 program, academic staff mobility can be realized by combining the teaching activity with the training activity. This combination is considered as a teaching activity as a whole.
- 7.2.1.8** Within the scope of the Erasmus+ KA131 program, mobility can take place in different types, either face-to-face or mixed. The suitability of this is shared in the relevant application call, depending on the conditions determined by the partner institution and the rules determined by the OIP.
- 7.2.1.9** The OIP organizes regular introductory meetings for the staff every academic year and ensures that Erasmus+ staff training & training mobility programs are announced within the University and participation is widespread. Information about applications is communicated via the OIP's website, University e-bulletin, the OIP social media channel and e-mail announcements to all staff.
- 7.2.1.10** The OIP is responsible for conducting the necessary interviews with partner institutions and determining the vacant quota information on the basis of the institution before the announcement of staff training and training within the scope of the Erasmus+ KA171 program.
- 7.2.1.11** The current quota information for Erasmus+ programs is updated by the OIP on the OIP website before the application announcements and on the KUAPP before the applications are open.
- 7.2.1.12** The application and evaluation calendar of Erasmus+ staff training-giving and training-reception programs is shared with the University community at the beginning of each academic year via the OIP website and the University e-bulletin. In case of a change in the calendar, The OIP is responsible for making the necessary arrangements. Application requests received outside of the dates specified in this calendar will not be considered.

7.2.1.13 Within the scope of the Global Exchange program, the OIP does not open an application call for training and training staff. The list of partner institutions that accept academic staff exchange is updated on the OIP website and shared with the staff. An applicant determines the institution he/she wants to apply and contacts the partner institution directly.

7.2.1.14 Application announcements are made 20-30 days before the applications are open. Applications continue to be received for 20-30 days. It is at the OIP's discretion to modify this application.

7.2.1.15 Following the first calls, if there are vacant quotas as a result of staff placements and/or if there are available resources in the budgets of Erasmus+ staff training reception and training-giving, a new application calendar is determined and announced to the staff.

7.2.1.16 The staff submits the required documents for the application to the OIP within the announced application period and as specified in the application announcements.

7.2.1.17 Students who want to benefit from Erasmus+ exchange programs for staff training-giving and training-reception are obliged to follow the information messages sent by the OIP and the OIP website.

7.2.2 Mobility Times

7.2.2.1 The duration of Erasmus+ KA131 staff training and training mobility is a minimum of 2 consecutive days and a maximum of 2 months, excluding travel.

7.2.2.2 The duration of Erasmus+ KA171 staff training and training mobility is a minimum of 5 consecutive days and a maximum of 2 months, excluding travel.

7.2.2.3 Erasmus+ KA131 staff training and training mobility can be carried out in combination. In mixed mobility, the duration should include a minimum of 2 days of face-to-face mobility, excluding travel days, and a maximum of 2 months of virtual mobility.

7.2.7.9 Staff who have been selected for Erasmus Exchange but have not received grant support can participate in the Erasmus Exchange, providing the signed grant agreement that includes their obligations and the information that they are on a non-grant mobility.

7.2.8.1 In cases where the staff is required to refund the grant (partial or full) to the University, the reason for the refund, the amount and the University bank account information to be refunded are notified to the staff via e-mail by the OIP.
