

Graduation rankings honors determination principles were discussed and the following items were accepted:

a) In order to be included in the graduation rankings and be entitled to receive graduation honor degrees, it was unanimously accepted that students complete the course load of at least 75 credits with a passing grade at Koç University.

b) Grades for courses that were transferred to Koç University from another institution, or which was obtained through a student exchange program in Fall 2014 or later, or who were taken in a Summer Semester course(s) at another university through an exchange program in the 2014 Fall semester are also included in the graduation ranking calculation as long as these courses count towards student's graduation. Courses whose credits are transferred and letter grades are not transferred do not affect the GPA, but are included in the GPA to be used for graduation ranking.

c) Students who have received a disciplinary penalty resulting in suspension or who have received more than one (academic or administrative) disciplinary penalty cannot be included in the graduation ranking and cannot receive an honorary degree.

d) For students whose graduation from double major is due the following year;

· A student can enter the school ranking only once.

· A student can only participate in the ranking of a College once. (For example, a student who is 2nd in CE in 2020 from his/her major will not be listed as 1st in CE ranking again if his/her double major is also engineering in 2021, but if he/she is in double major CASE, he/she can participate in CASE ranking in 2021.)

e) The GPA used for graduation rankings is calculated on the basis of the average of the grades obtained before the S conversion.

f) Graduation honor degrees will be awarded as a result of GPAs calculated according to these principles:

- Cum Laude - Honor for students with a GPA between 3.25-3.49,
- Magna Cum Laude – High Honor for students with a GPA between 3.50-3.74,
- Students with a GPA of 3.75 and above will be awarded Summa Cum Laude – Highest Honor degrees.

The criteria for the Dean's Honor Roll announced at the end of each semester and the Vehbi Koç Honor Awards announced every year after the Spring semester are as follows:

Dean's Honor Roll: Effective with Fall 2021 Semester, students with a SPA of 3.25 and above at the end of each semester and who have completed that semester with at least 15 credits from 'graded courses' are included in the "Dean's Honor Roll". The honor roll is announced by the deans of the programs they are enrolled in. Students who have received a disciplinary penalty resulting in suspension or who have received more than one (academic or administrative) disciplinary penalty cannot be included in the Dean's Honor Roll.

Medicine students' eligibility for Vehbi Koç Honor Awards or Dean Honors Roll is determined according to Koç University School of Medicine Undergraduate Procedures.

Vehbi Koç Honor Awards: Effective with Fall 2021 Semester, the Vehbi Koç Honor Award is given, at the end of the Spring semester each year, to students who have a SPA of 3.75 and above and have

received at least 15 credits from the 'graded courses', in the last Fall or Spring semesters. Students who have received a disciplinary penalty resulting in suspension or who have received more than one (academic or administrative) disciplinary penalty cannot receive the Vehbi Koç Honor Award.
